

P.a.

Project brief

Take a screenshot of the project brief, where provided. Where one is not provided, write a project brief which outlines the requirements of the program.

Project Brief

You are required to build a day trip planner using Google Maps API and Google Places API. Users should be able to find out about interesting places or events near to where they're planning to go and save the ones they like most into an itinerary.

You must have fun and work as a team.

Auto generate an itinerary of the highlights of Scotland from your chosen categories app

Add a card...
